TORK® **Think ahead.**

Your guide to Tork Vision Cleaning
The complete range of connected products

Upgrading to data-driven cleaning has never been easier

Note: Tork Vision Cleaning was formerly known as Tork EasyCube®

Tork Vision Cleaning creates a whole new logic for cleaning

Why upgrade to data-driven cleaning?

The cleaning industry is faced with ever-stricter demands on quality, operational effectiveness and hygiene. By upgrading to data-driven cleaning, facility managers can allocate resources more efficiently and help cleaning teams do more with less.

The value of Tork Vision Cleaning

Tork Vision Cleaning harnesses real-time data from people counters and connected dispensers to provide facility managers and cleaners with instant access to visitor traffic and refill levels. This means that cleaning teams can adopt a more flexible and proactive way of working instead of following a static schedule.

- Use data to understand when and where there are needs

- Optimize resources and spend time on what is most important

- Use built-in reporting tools to demonstrate a job well done and improve ways of working

- Save time and create efficiency on tasks like dispenser checks and avoid unnecessary cleaning

- Reduce product waste by using data to avoid early refilling

- Faster and easier hand-over between shifts and training for new employees

The result is higher cleaning quality, fewer complaints and improved operational efficiency. By putting real-time data in the hands of cleaning teams you also empower them to optimize resources, create a safe environment and provide peace of mind for yourself and all users of the facility.

How it works

Harnessing real-time data about cleaning needs

People Counters and Connected Dispensers

Sensors measure visitor traffic and refill levels.

A gateway collects the data and communicates with the cloud.

The Cloud

Data from the gateway is collected in the cloud powered by Microsoft Azure, which ensures security, reliability and scalability.
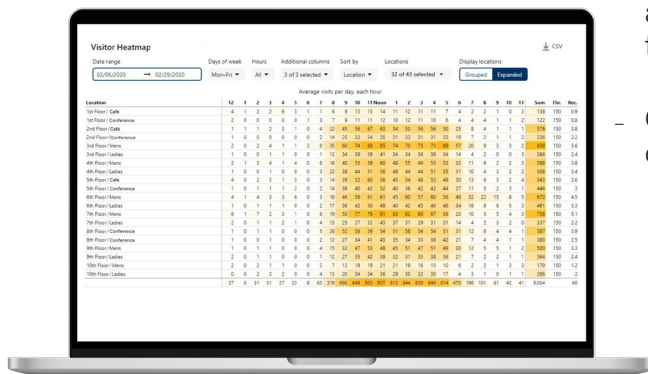

Tork Vision Cleaning

Real-time information is easily accessed on your desktop, tablet or mobile phone for quick, data-based decisions.

Optimize cleaning resources and transform your way of working by:

– Benefitting from real-time traffic analytics and tools like the visitor heatmap that show hot spots and trends

– Working with digital cleaning plans that provide clear instructions with always up-to-date information for cleaners

– Cleaners quickly identifying urgent tasks such as areas that need to be cleaned and dispensers that need to be refilled

– Cleaners monitoring and being able to act before complaints happen

Choose the right Tork Vision Cleaning offer to suit your business

Know how to target the right areas at the right times based on visitor traffic

Know when and where products are needed, and target cleaning based on visitor traffic and supply levels

Transform your way of working based on real-time data and fully digital cleaning plans

Facility Flow

– People Counters

– Cleaning plans for connected areas

Refill on Demand

– People Counters

– Connected Dispensers

– Cleaning plans for connected areas

Customized Cleaning

– People Counters

– Connected Dispensers

– Customized Cleaning Plans throughout facility

Helps you achieve:

– **Smarter staffing** to allocate resources where they are needed

– **Optimal cleaning frequencies** by seeing where and when there are needs

– **Targeted touchpoint cleaning** based on real-time visitor traffic analytics

Also helps you achieve:

– **Faster resolution** times for staff to replenish critical hygiene supplies and know which products to bring

– **Better budget and inventory management** through insights on products usage by location and type

– **Improved efficiency and labor savings** by reducing unnecessary tasks like dispenser checks

Also helps you achieve:

– **Easy adjustment to changing hygiene protocols** thanks to dynamic tasks and instructions

– **Simplified onboarding and training** by integrating all traffic and dispenser data in customized cleaning plans

– **Higher staff satisfaction and better results** through empowered ways of working for cleaners

Europe

Tork SmartOne Mini Toilet Roll — T9

| 681000 | 681008 | 682000 | 682008 | 652811 |

- Single-sheet dispensing helps reduce consumption by up to 40%
- Hygienic because guests touch only the paper they use
- Durable design with metal key and lock that protects the roll and stops pilferage

The refill levels reported by the sensors are visualized by colors:

Single roll dispensers

Green: indicates that the dispenser still has enough paper remaining

Red: indicates that the dispenser is almost empty

Twin dispensers

Green: indicates that the dispenser still has enough paper remaining

Yellow: indicates that it is possible to refill the dispenser

Red: indicates that the dispenser is almost empty
