

# Campus operations are complex, your job doesn't have to be

Elevate the experience with the Tork Campus Hygiene Package

# 81%

of students are  
concerned about  
becoming ill due to  
poor hygiene<sup>1</sup>

The Tork Campus Hygiene  
Package™ offers you  
everything you need to help:

Improve cleaning quality and  
promote hygiene for a healthy  
campus environment

Increase operational efficiency

Meet your sustainability goals

# Campus hygiene and cleanliness have never been more critical

Operations managers are faced with higher demands than ever on cleaning quality, hygiene and operational efficiency – without compromising on sustainability. The pandemic has added even more pressure in the form of stricter cleaning protocols and new tasks like providing sanitizers and more surface sanitizing. It has also brought even more staffing and scheduling issues. The result is that managers and staff are now expected to do more with the same, or even less, resources.

**Tork is the global leader in professional hygiene. We can help you promote and improve hand and surface hygiene throughout your campus. Also, with real-time data on cleaning and service needs from the world's leading facility management solution for data-driven cleaning, Tork Vision Cleaning, you can maximize efficiency and resources by empowering your staff to clean when and where it is needed, thereby eliminating unnecessary tasks.**

**Elevate the experience –  
in every part of the campus!**

The Tork Campus Hygiene Package offers you a tailor-made selection of products, services, tools and support that help you meet the new hygiene expectations and make everyone on campus feel safe.

# Tork Vision Cleaning

Helps you meet your challenges

What if you could improve cleaning performance with less effort, save 20% of your cleaning hours and respond to cleaning and dispenser refill needs before you get complaints? Now you can. Tork Vision Cleaning uses real-time data to help you better support campus hygiene and transform your way of working by:

- Benefitting from real-time traffic analytics and tools like the visitor heatmap that show hot spots and trends
- Working with digital cleaning plans that provide clear instructions with always up-to-date information for cleaners
- Cleaners quickly identifying urgent tasks such as areas that need to be cleaned and dispensers that need to be refilled
- Cleaners knowing and monitoring cleaning needs and being able to act before complaints happen

## How it works

### People Counters and Connected Dispensers

Sensors measure visitor traffic and refill levels.

A gateway collects the data and communicates with the cloud.

### The Cloud

Data from the gateway is collected in the cloud powered by Microsoft Azure, which ensures security, reliability and scalability.

### Tork Vision Cleaning

Real-time information is easily accessed on your desktop, tablet or mobile phone for quick, data-based decisions.

# The Value of Tork Vision Cleaning

**Use data to understand** when and where there are needs

**Optimize your resources** and spend time on what is most important

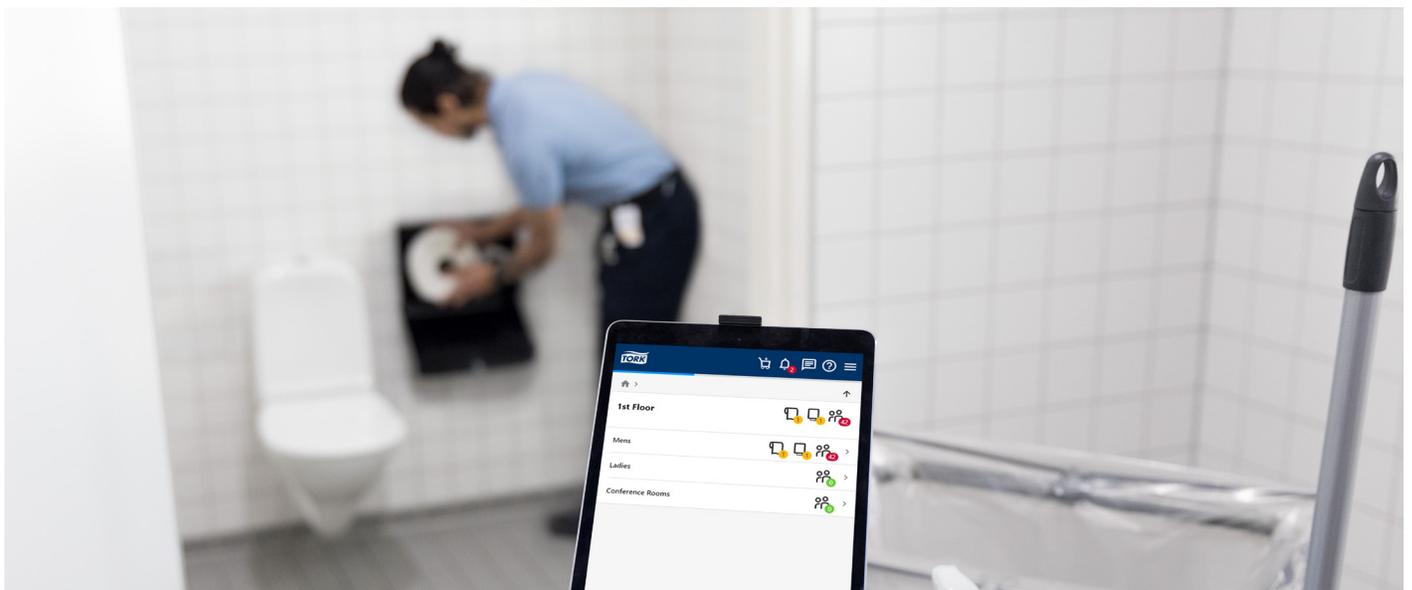

**Use built-in reporting tools** to demonstrate a job well done and improve ways of working

**Save time and create efficiency** on tasks like dispenser checks and avoid unnecessary cleaning

**Reduce product waste** by using data to avoid early refilling

**Make sure that dispensers are stocked up to**

**99%**  
of the time<sup>1</sup>

**Reduce dispenser checks by up to**

**91%**<sup>2</sup>

**Save up to**

**20%**  
of cleaning hours<sup>3</sup>

**100%**

of existing customers say Tork Vision Cleaning helps them improve hygiene in their facility<sup>4</sup>

1. Measured across nearly 13,000 connected dispensers between June-December 2019, based on time per month that a dispenser is in an empty status against total time per month.

2. Based on customer feedback for dispenser checks over 6 months before vs after installing Tork Vision Cleaning (between June-December 2019). Measured across 16 sites connected to Tork Vision Cleaning, with each dispenser check taking approx. 20 seconds.

3. Based on the documented results achieved by three Tork Vision Cleaning customers, measured before and after the implementation of Tork Vision Cleaning.

4. Based on survey results conducted in March 2021 of 34 Tork Vision Cleaning customers in Europe and North America.

Note: Tork Vision Cleaning was formerly known as Tork EasyCube.

# With Tork you don't need to choose between hygiene and sustainability

The main sustainability challenges for operations managers are: reducing carbon emissions and waste, and increasing health, hygiene and safety standards<sup>1</sup>. Sustainability is integrated at the core of our business and we continuously develop solutions that improve well-being, do more from less and contribute to circularity. In other words: when choosing Tork you get the products, services, tools and support to help meet your sustainability requirements – without compromising on hygiene and safety.

## Well-being

Campus operations management can be complex and the work physically challenging. Tork Vision Cleaning helps to make managing the entire operation easier, more efficient and supports empowered ways of working for all cleaning staff. Our products are developed with sustainability in mind and to be less harsh in use, such as Tork Clarity Hand Washing Foam Soap, which has a readily biodegradable formula<sup>2</sup>.

### Tork Vision Cleaning

**24%**

fewer cleaning rounds with improved quality with data-driven cleaning<sup>3</sup>

### Tork Vision Cleaning

**30%**

higher customer satisfaction<sup>4</sup>

## More from less

The best way to cut carbon emissions and waste is to get more results from fewer resources. That's why Tork products are based on environmentally sound, resource-efficient sourcing and production. They also encourage efficient usage and less waste through innovations like one-at-a-time dispensing and compressed refills.

### Tork Clarity Hand Washing Foam Soap

**35%**

less water consumption<sup>5</sup>

### Tork Xpressnap Fit<sup>®</sup>

Cuts unused napkins thrown away by more than

**50%**<sup>6</sup>

## Circularity

Going circular means re-thinking the way we do business, using resources more efficiently and reducing waste. Our goal is to design products and services that fit into a circular society. By partnering with like-minded companies, we can close the loop in Professional Hygiene.

### Circularity initiatives

We assist universities with **zero waste** to landfill goals

### Circularity initiatives

Majority of our products are certified **compostable** for a responsible end of life<sup>7</sup>

1. Engaging with The Higher Education Market, Quantitative Insights, B2B International, July 2021. 2. Proven by third party lab test according to OECD301B. 3. Based on the documented results achieved by three Tork Vision Cleaning customers, measured before and after the implementation of Tork Vision Cleaning. 4. Measurement of visitor satisfaction in two Tork Vision Cleaning restrooms and two traditionally maintained and equipped toilets at the ISSA/Interclean exhibition, May 2016. Note: Tork Vision Cleaning was formerly known as Tork EasyCube. 5. Based on an Internal panel test comparing with Tork Mild Foam soap. 6. 2-ply napkin in Tabletop dispenser compared to Fast Fold (Tork Dispenser: 271800 and Tork Refill: 10933). 7. Compostable in commercial composting facilities. All Tork Universal and Advanced Napkins, including custom print, are certified BPI (Biodegradable Products Institute) and all Tork hand towels are certified CMA (Composting Manufacturing Alliance). 8. The net-zero ambition means that Essity has joined the U.N. Global Compact's "Business Ambition for 1.5° C" to develop targets to reach net zero emissions by 2050 for the entire value chain, in line with SBTi criteria.

## Tork Closed Loop Recycling

The Tork Closed Loop Recycling program has helped University of Vermont:

Divert over

# 15,000

cubic feet of office paper from traditional recycling, making new tissue products locally instead.

Avoided burning

# 75,000

gallons of oil in production and transportation.

Cut

# 12,000

pounds of air pollutants from production and transportation.

## Third party certifications

The majority of our refills are third party certified

## Tork Commitments

**Net-zero** greenhouse gas emissions by 2050<sup>8</sup>

### Tork Plastic Pledge

Today

# 90%

of Tork packaging is made from renewable resources

By 2025

# 100%

of our plastic packaging will be recyclable

By 2025, We will use

# 30%

recycled content in plastic packaging

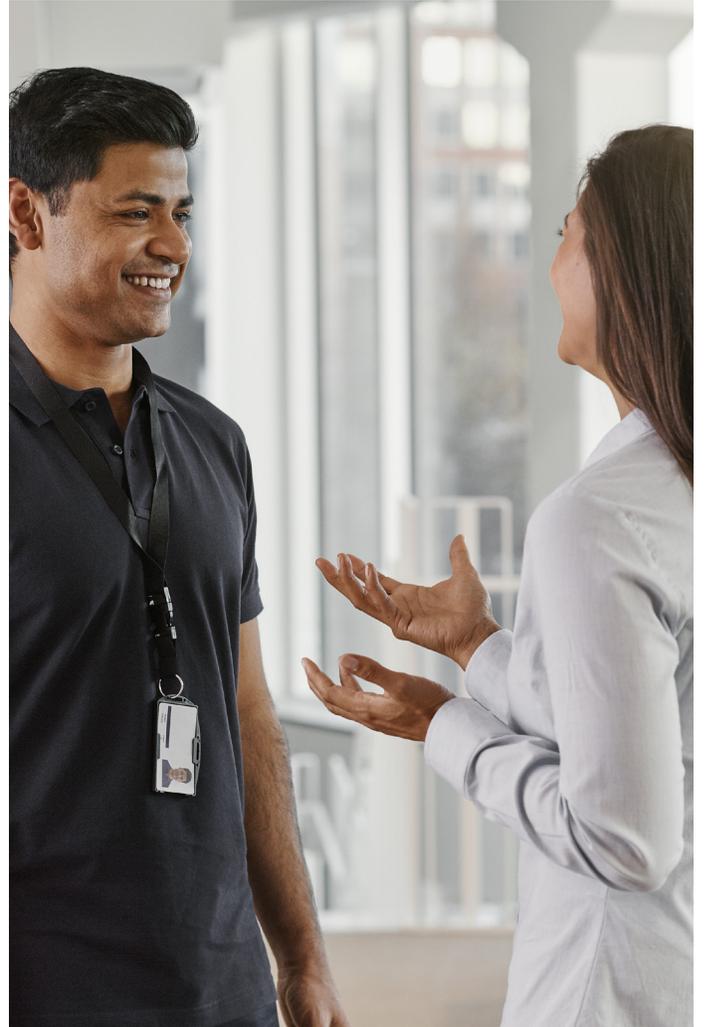

## Book a hygiene site survey

To make sure that your facility is up to date, we offer a hygiene site survey where we help you identify the most optimal hygiene solution for your facility and bring attention to any possible areas of improvement. Based on these findings, we give you clear recommendations for your campus. The survey can take place in your facility, by phone or video chat. See below for contact details.

### Tools and Support

In addition to proven products and services, the Tork Campus Hygiene Package also includes the tools and support you need to be ready for business and help make everyone feel safe. Visit our web page to find out more (see below).
