Clorox® Total 360® System Delivers Superior Results

The Clorox® Total 360® Electrostatic Sprayer, with the patented PowerWrap™ nozzle, is an efficient, reliable and powerful method to ensure all surfaces — front, back and sides — can be properly disinfected and sanitized.

The Clorox® Total 360® System Advantages...

Patented PowerWrap™ Nozzle

The advanced nozzle design provides highly reliable atomization and particle size.

Delivers uniform wraparound coverage on all sides of target.

Powerful Air Compressor

The dynamic air compressor enables fast, efficient delivery of charged particles to targeted surfaces.

Cover more intended surfaces in less time.

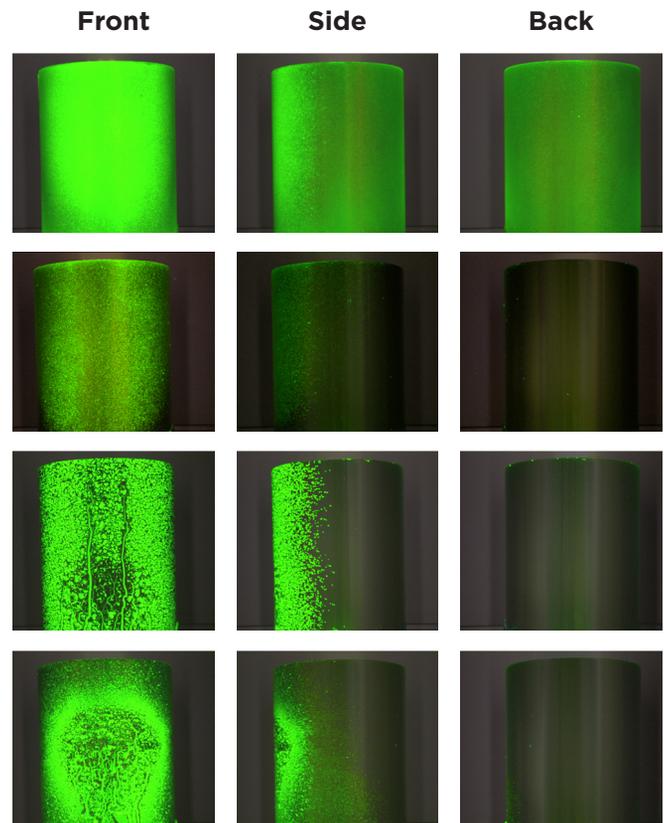

Reliable Delivery Method

The corded system ensures safe grounding and consistent electrostatic output.

No variance in performance due to operator handling or battery life.

Exceptional Wraparound Coverage vs. Other Sprayers

The Clorox® Total 360® Electrostatic Sprayer delivers more uniform, wraparound coverage to the targeted surfaces than current sprayers on the market today.* Superior surface coverage helps provide better protection from the spread of germs.

*Results were determined in a single spray study conducted on metal trash cans (7.5 inches in diameter). Testing protocol established by using average of manufacturer suggested spray distances. Cordless electrostatic sprayer disinfection nozzle setting used.

Get Superior Coverage with Trusted Solutions...For Healthier Facilities

In facilities where people work, live, and play, illness-causing germs can quickly spread on surfaces. Manual cleaning methods and traditional disinfecting tools aren't designed to effectively reach all areas, leaving facilities and tenants at risk of illness.

Now a revolutionary new way to get the job done right.

The Clorox® Total 360® System pairs an electrostatic sprayer with a portfolio of Clorox disinfectants and sanitizers to ensure all surfaces — even those hard-to-reach, difficult-to-clean areas — are properly treated. The superior coverage helps keep facilities healthier, while also saving time and money.

Maximum Efficiency

The Clorox® Total 360® System Saves Time and Money

The Clorox® Total 360® System provides greater surface coverage in less time with less solution.* Designed with the end-user in mind, the system is built for maximum efficiency with minimal waste.

Fast, Effective Coverage

- ▶ Treats up to 300 square feet per minute, up to 75% faster than traditional sprayers*
- ▶ Completely covers front, back and sides of surfaces with less labor required
- ▶ One-step treatment saves time

Ideal for Large Spaces

- ▶ 18,000 square feet can be covered on a continuous spray
- ▶ Uses up to 65% less solution to treat surfaces, so your liquid goes farther*

Designed for Ease of Use

- ▶ Ready-to-use premixed solutions; no measuring or diluting
- ▶ Ergonomically designed sprayer with lightweight handle
- ▶ Always-on sprayer button eliminates trigger fatigue

Electrostatic Sprayer Safety

Unit is grounded via plug.

The Clorox® Total 360® System meets Underwriter Laboratories' published and nationally recognized standards for safety.

Safe for End-User

- ▶ Grounded device
- ▶ UL certified
- ▶ Clorox® Total 360® PPE guidelines based on testing both sprayer and solutions together
